M.UMAR FAROOQ

AI/ML EXPERT AND WEB DEVELOPER

ABOUT ME

I am Muhammad Umar Farooq, a Computer Science student at COMSATS University, Vehari Campus, with a strong passion for exploring and learning emerging technologies. I am highly motivated to build innovative solutions and continuously enhance my technical skills. With a keen interest in software development, data science, and modern computing tools, I am eager to contribute my knowledge and grow as a professional in the field of technology.

EXPERIENCE

- AI/ML Internship at DeveloperHub Corporation
- Web project
- Personal Finance Management System - Designed and developed a full-featured web application to help users manage and track their personal expenses. Implemented modules for expense categorization, budget monitoring, and reporting to provide a seamless user experience.
- Building Chatbots and AI Agents with n8n
- n8n acts as a powerful orchestrator, allowing you to combine AI model intelligence with the ability to perform real-world actions across hundreds of services. This capability is what transforms a simple AI into an intelligent "agent."
- Data Science
- Python - Applied advanced Excel functions, pivot tables, and Python analysis libraries such as Pandas and NumPy for efficient data cleaning, analysis, and reporting automation.

SKILL

AI&ML

AI AUTOMATION

Web Development
